The Council on American-Islamic Relations (CAIR) seeks to empower the American Muslim community with its 2012 Presidential Voter Guide, providing general information about the election such as candidate positions and biographies. CAIR seeks to educate Muslim voters on candidate positions and encourages Muslims to support candidates whose positions they agree with.

The 2012 election cycle presents the American Muslim community with an important opportunity to increase its political capacity and presence. With large concentrations of Muslim voters in key swing states such as Ohio, Florida and Michigan, the American Muslim population has the potential to be influential in determining who will be the next President of the United States.

CAIR as a nonpartisan organization is able to encourage Muslims to participate in national and state elections, conduct voter registrations, training programs, issue briefings, candidate forums, volunteer in campaigns, and get out the vote drives. Nonprofits cannot engage in political activities that support one candidate or party over another, but we are committed to making our community's voice heard.
